

Outdoor Dining

There are a few factors to consider when you are thinking of creating an outdoor space for your restaurant.

CURB APPEAL

- **Catch Their Eye-** Consider what attracts customers to your restaurant. An outdoor dining space can create a beautiful and comfortable atmosphere, attracting many new customers.
- **Follow the Leader-** Individuals often follow other's actions, especially when choosing what restaurant, store, or business is "hot." When others see your customers enjoying themselves outdoors, their interest is automatically peaked.

- **Weather-** A big issue with outdoor dining is the weather. However, this can easily be taken care of with simple accommodations like patio heaters, awnings and misting fans.
- **Seating-** Outdoor dining can increase your revenue. More seating allows you to serve more customers. Also your loyal clients do not have to wait hours for an open table.
